West Bloomfield School District
Educating Students to be their Best IN and FOR the World

SCHOOL FEEDER SYSTEM

West Bloomfield High School

The feeder patterns in our district show which neighborhood K-2 elementary schools feed into the 3-5 elementary schools, and subsequently the middle schools and the high school. Please visit School Boundary Maps on our website at www.wbsd.org for assistance in identifying neighborhood school boundaries.

The West Bloomfield School District provides comprehensive learning environments that meet the diverse needs of all of our students. The spectrum of services include primary focus programs, upper elementary programs, rigorous middle school programs and an array of college and career readiness learning opportunities for high school students.

We ARE THE TOTAL PACKAGE!
