

Our Story

In 1996, while working as the Director of the Emergency Department at Cincinnati Children’s Hospital Medical Center, Erin Riehle was frustrated with finding employees for entry-level jobs that involved restocking supplies. While working to identify a solution to eliminating the high turnover rates, Cincinnati Children’s had adopted a major diversity initiative, taking a policy statement from the American College of Healthcare executives, which reads, “Healthcare organizations must lead their communities in increasing employment opportunities for qualified persons with disabilities and advocate on behalf of their employment to other organizations.” Erin wondered if people with disabilities could fill the entry level jobs she had. Not knowing anyone with a disability she turned to Great Oaks Career Campuses and the Hamilton County Board of Developmental Disability Services and asked if her idea was possible. Together with these organizations the idea of filling a handful of jobs in Cincinnati Children’s Emergency Department evolved into a comprehensive program model—Project SEARCH.

Project SEARCH has grown from one original program site at Cincinnati Children’s to 600 programs across 48 states and nine countries. Some of our business partners include: Fifth Third Bank, Dow Chemical, The Smithsonian Institute, Henry Ford Hospital, Duncan Aviation, Medtronic, Embassy Suites in many locations, Zoo Miami, Indiana, Michigan and Minnesota State Governments, Emory Midtown Hospital, Drexel University, Xavier University, Kaiser Permanente, McConnell Air Force Base, Joint Base Andrews, National Institutes of Health and Henry Ford Beaumont Hospital, and Cleveland Clinic to name a few. **Project SEARCH’s primary objective is to secure competitive employment for people with disabilities.**

Project SEARCH is driven by collaboration with many community partners: Hospital or Business in the community, Local School District(s) and/or Educational Organization, Vocational Rehabilitation, Community Rehabilitation Partner, Developmental Disabilities organization and other local / state agencies.

“When businesses identify the strengths of employees with disabilities, then help them find them jobs that match their skills, those employees turn out to be faithful, low turnover, hard-working employees... The Project SEARCH community, whether the instructors, skills trainers and other partners all help us at Fifth Third Bank become successful partners. As experts in running this type of program, they offer the experience to truly make our students successful. Fifth Third Bank sees Project SEARCH as an opportunity to strengthen the community and a true recruitment strategy. We achieve both these things by helping our student interns learn valuable and transferable life and employment skills.” Teresa Tanner, Executive Vice President, Fifth Third Bank, Chief Administrative Officer.

The Training Program is a nine month internship program for people with disabilities. It is targeted for individuals whose goal is competitive employment. The program takes place in a healthcare, government or business setting where total immersion in the workplace facilitates the teaching and learning process as well as the acquisition of employability and marketable work skills. Interns participate in three internships to explore a variety of career paths. The interns work with a team that includes their family, an instructor, and local and state agencies to create an employment goal.

BENEFITS of the Project SEARCH Model:

Benefits to the Students:

- ❖ Participate in a variety of internships within the host hospital / business
- ❖ Acquire competitive, transferable and marketable job skills
- ❖ Gain increased independence, confidence, and self esteem
- ❖ Obtain work based individualized coaching, instruction and feedback
- ❖ Develop linkages to Vocational Rehabilitation and other adult service agencies

Benefits to the Business:

- ❖ Access to a new, diverse, talent stream with skills that match labor needs
- ❖ Gain intern/ employee with disabilities who serve as a role model for customers
- ❖ Access to a demographic of the economy with intense buying power: people with disabilities represent one of the fastest growing market segments in the United States
- ❖ Experience increased regional and national recognition through marketing of this unique program
- ❖ Increased performance and retention in high-turnover, entry-level positions
