Director's Message

Like many of us, I always look forward anxiously to spring and summer, but not totally for all of the obvious reasons. Like no more snow, sleet and ice (hopefully). Rather, I look forward to spring and summer because this is a time when our program really shines. Summer especially is such a great time for learning and growing both physically and academically for our young people. Students have so many opportunities. Our catalog is full of those opportunities; too many to highlight in my message.

However, there are a few I wish to mention. STEAM camps such as **LEGO Robotics** and **Video Game Design**, science camps including **Brick Building with Lights and Sounds**, **Follow Me Robot** (p. 6), along with our very popular basketball, baseball, volleyball, flag football and soccer camp all add up to loads of fun and learning.

New this year is **EdReady Math**, an online program offered through Michigan Virtual Academy, to help incoming 6th-8th graders master a range of mathematical concepts. This is a quality program at a great price of only \$50!

Bridge 6 helps incoming 6th graders adjust to middle school and Bridge 9 does the same for incoming freshman. And, **Bridge 9** students earn .5 high school credit. **GRASP 2019**, Greater Retention & Achievement through Summer Practice is also offered. Although this is a home-based program, our experienced GRASP teacher gives lots of individual instruction.

We have been in the summer day camp business for over 35 years. Our camps are carefully designed and expertly run by West Bloomfield School District teachers and staff. They are fun, educational and held in a safe and nurturing environment at Roosevelt Elementary. **Free** breakfast and lunch is available daily to all campers.

There is much research that indicates it is imperative for students to remain academically challenged through the summer months. I strongly encourage you to register your student today. Quality programs, taught by top-notch teachers and instructors all very reasonably priced.

Let's not forget about the adult, either. Why not reserve some time in your busy life and treat yourself to one of our enrichment classes? In our "Food for Thought" section, make **Perfect Pierogies**, **Fresh Mexican Tamales in Corn Husks** or **Authentic Italian Cannoli** (p.3). How fun!

Don't want to venture out for a class? Our Online Learning offerings include **Introduction to Web Design**, **Basics of Bookkeeping**, **Keys to Customer Service** and **Writing News and Press Releases** (p.3).

Enjoy!

Food For Thought

Location: West Bloomfield High School
Instructor: Andrea Janssen

Perfect Pierogies

In this fun hands-on class you'll prepare about two dozen fresh and delicious pierogies from scratch, overstuffed with your favorite fillings! Learn how you can flavor and season your dough, plus endless ways to create all kinds of amazing savory or sweet fillings too. You'll never buy store brand pierogies again! Send an email to supplylist@gmail.com or call Andrea at (586)549-7648 for a list of supplies to bring.

Specialty

WB Tech FUN!

Location: Roosevelt Elementary School

Instructor: Ms. Cindy Carson

Information/Technology Specialist
FLL and FLL Jr. Coach and Mentor

LEGO Robotics WeDo Coding

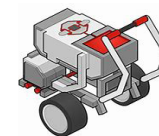

Campers will learn the basic features of the LEGO We Do 2.0 APP. Through block coding and use of various sensors, Marvelous Milo will come to life! A great opportunity for students to enhance their creativity, critical thinking, problem solving and collaborative teamwork skills. Camp prepares students for participation in Lego League Jr. and Lego League teams.

#	Grade	Day	Time	Dates	Fee

Gymnastics & Tumbling

Location: Roosevelt Elementary School

Instructors: TumbleBunnies International

Each of our programs promotes confidence, self-esteem, coordination, courage & FUN for every child. Our unique style of teaching encourages learning and bubbles energetically with non-stop activity. Instructors bring a variety of equipment such as balance beams, bars, trampolines, wedge mats, octagons, vault, ladders and so much more. Camp is jam packed with activities that include a new warm up, across the floor activities, movement to music, and an outrageously fun obstacle course. Several small props are brought in to ensure the fun such as hoops, beanbags, ribbons, balls, scarves, cones, ropes, etc.

S.T.E.A.M.

Early Childhood

Game Crazy

Location: Roosevelt Elementary School

Director: Suman Chaudhuri

Game Crazy is a Michigan based company servicing metro Detroit and the suburbs. A mobile gaming company that offers students the thrill of unique, fun and active STEAM based classes and camps.

LEGO Robotics

A highly fun and educational LEGO camp. Younger campers will use the SoccerBot program where they built an entire soccer game out of robots. Older campers will be immersed in the Deep Space Terraformers program where they built a TerraBot which was sent to a distant planet Pantheon to make it habitable by humans. The TerraBot has to use sensors to become aware of its surroundings so that it can navigate the planet's terrain on its own and carry out missions like planting a flag, gathering and crushing rocks, plugging an active volcano, rescuing a moon buggy and much more. In the process, all campers will learn Science, Technology, Engineering and Math concepts in a "minds-on hands-on" environment.

#	Age	Day	Time	Dates	Fee
6487	5-13	M-F	9:00-12:00 pm	7/8-7/12	\$150
6490	5-13	M-F	1:00-4:00 pm	7/29-8/2	\$150

Video Game Design

Kids love playing video games. Now they can build their own! What better way to teach a child core STEAM concepts than using a medium that has their full attention?

Kids will immerse themselves in all aspects of video game design - from game ideation to storyboarding to the iterative development process of prototyping and testing, taking home the finished project.

#	Age	Day	Time	Dates	Fee
6491	8 & up	M-F	1:00-4:00 pm	6/24-6/28	\$150

Minecraft Redstone Programming

Kids are addicted to Minecraft.

Minecraft is a game in which players construct elaborate worlds and play in them, often with others. We use Minecraft as a teaching tool to teach kids about digital citizenship, history, architecture, electronic circuits and computer programming. Using Minecraft concepts of Redstone and ComputerCraft concepts of LUA programming, kids learn the basics of how circuitry works and how to program to bring their Minecraft creations to life! From creating password protected doors to a bank that will accept their deposits and withdrawals, kids learn so much through gamification of educational concepts.

#	Age	Day	Time	Dates	Fee
6493	9 & up	M-F	9:00-12:00 pm	6/24-6/28	\$150
6494	9 & up	M-F	9:00-12:00 pm	8/5-8/9	\$150

3D Printing

Welcome to the world of 3D printing! Learn to create 3D models as you design intricate objects, prepare them for printing, and then watch them take shape. In this camp, you will learn everything you need to know to design and 3D print your own creations. You'll learn an awesome 3D modeling program that will let you design just about anything. You'll also learn the ins-and-outs of desktop 3D-printing. After this camp and enough practice, you'll be a pro in no time.

#	Age	Day	Time	Dates	Fee
6475	11 & up	M-F	9:00-12:00 pm	7/29-8/2	\$150

LEGO Stop Motion Animation

Children are natural born storytellers. This gives them the medium to bring their stories to life. Using LEGO, kids learn how to develop an idea, create characters, story board scenes, build backgrounds, time sequence shots and put it all together with music and green screen effects to create their very own animated movie that they take home to show their parents!

#	Age	Day	Time	Dates	Fee

Sciensational Science Camps

Location: Roosevelt Elementary School

Director: Neal Schulman

Now in its 37th year of operation, Sciensational Workshops for Kids offers hands-on education and fun.

Brick Building with Lights and Sound

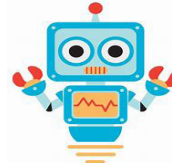

STEAM your way to the future! How about becoming an architect and electronics scientist. Make endless combinations of brick construction and electronics. Invent anything and make it work all by doing it the Sciensational Way!! How about building your own light post with color effects. Build and design your own brick tower, light it up, play music, and turn on your LED'S. Build your own brick bridge with melody and sound. Construct a brick mammal, a three level house, and light house. Put in overhead lights. Now it is your time to design, think, and use your inventors skills. The sky is the limit!

#	Age	Day	Time	Dates	Fee
6020	7-12	M-F	9:00-12:00 pm	6/17-6/21	\$197
6201	Early Bird		7:00-9:00 am		\$40

Follow Me Robot

How would you like to build a robot that has four built-in microphones? It will detect the sound source and in turn it will move and turn accordingly. It is your own robot to build and take home. Wow! It starts flashing and plays Do-Re-Me. Make it move the way you want it to move. It is so smart. It will move in its own routine if it does not get a signal in 1 minute. It will go to sleep if you do not issue any commands in 90 seconds. Learn about the different gears and sensors as you build it. Get to build other robots working in groups. Join in our Sumo wrestling and obstacle course events with what you have built. See everything happening as you build. That's the Sciensational way!

#	Age	Day	Time	Dates	Fee
6022	7-12	M-F	1:00-4:00 pm	6/17-6/21	\$197
6211	Late Stay		4:00-6:00 pm		\$60

Make It and Take it Home

Science Projects you take home that teach - that are fun. In this hands-on, fun, and exciting program, you will discover how amazing science is. You will make and take home a wide assortment of toys designed to teach you science concepts in a hands-on way. Grow and take home a crystal tree. Make an energy bead bracelet and watch as those amazing beads turn from white to a rainbow of colors before your eyes. Build a working electric motor. Make your own sharpie pen T-shirt and learn some cool chemistry (student supplies a 100% cotton T-shirt). Make your own bubbling blobs and explore the properties of a density tube. Make silly putty—glowing goo—green flubber and other cool projects. By the way...we will make ice cream in our own amazing, different, Sciensational way!

#	Grade	Day	Time	Dates	Fee

Egyptian Dig - Buried Treasure Digs

Children discover the amazing science of Archaeology as they uncover ancient artifacts. In doing this, we will learn about Egyptian life. We will excavate with tools like a real archaeologist uses. We will find the following artifacts as we excavate a scarab (what's that?), hieroglyphic tablet, ankh symbol and a jackal. You will learn about this and even take home a booklet. The artifacts are yours to keep. We will wet the sand that we dig into and create one of two sand sculptures for display. You can make a pyramid as well as a sphinx. Let's go back in time with a hands on archaeological experience!

NFL YOUTH FLAG FOOTBALL
EXPERIENCE THE DIFFERENCE

Grades Pre K - 8th
Presented by: National Flag Football

This is a 5 vs. 5, non-contact, recreational, co-ed format. Teams are limited to 10 players to maximize playing time. This is an exceptional program for first time players who want to learn the fundamentals of football. Practices take place one hour prior to game time each week to ensure a convenient and fun experience for all. Participants will receive a NFL reversible jersey, flag belt and individual participation award. Games are officiated by MHSAA referees. The season begins mid - September and runs through the beginning of November. There are no try-outs! Everyone participates! Children are placed on teams according to their school and grade to ensure classmates are playing together.

Registration Deadline: July 26th, 2019 You must register on-line at:
