## ASQ Consent Form (Ages and Stages Questionnaire)

The Ages and Stages Questionnaire-3 is a screening tool that asks questions about your child's overall and social emotional development. The areas that are questioned and observed will include: Communication, Physical Ability (Fine and Gross), Problem Solving, and Personal-Social skills.

The questionnaire will help identify areas of your child's strengths as well as areas that may need additional support. All information is protected and confidential. Information is entered into a database and is securely protected.

Your child's initial observation and scoring will be shared with you at a later date in the year; this conversation may occur at conferences or the second home visit.

I have read the above information and give Great Start Oakland and the West Bloomfield Preschool Academy permission to conduct the ASQ screening.

- Yes, I will participate in the ASQ screening.
- No, I do not wish to participate at this time in the ASQ screening.
